

PUBLIC & PRODUCT LIABILITY

23 FEBRUARY 2015 | INSURANCE & HEALTH LAW

At Barry.Nilsson., our team of lawyers located in offices around Australia have extensive experience with handling third-party public and product liability claims.

They regularly assist insurers, mutuals, underwriters and brokers operating in both the Australian and London markets, as well as Australian-based self-insureds and third-party administrators.

Our public and product liability legal team is equipped to handle both personal injury and property damage matters. We have specific expertise in handling claims involving:

- Complex policy coverage or indemnity issues
- Large loss recoveries
- Multi-party disputes
- Defective products
- Negligent and/or defective building work
- Dual insurance claims.

We provide coverage advice for most claims in which we receive instructions and continue to manage coverage issues for you throughout claims, including where cover is declined or disputed. We can also advise on any other issues relevant to managing your relationship with your clients.
