 georgia.hancy@bnlaw.com.au

Georgia is an senior associate in our Insurance & health team and is based in our Perth office.

"I really like the fact that Barry.Nilsson. has a core focus on a small number of practice areas. I welcome being part of a specialist firm where client service is paramount."

Georgia represents large insurers and their insureds in a range of matters, including in the areas of:

- Directors' and officers' liability
- Risk management
- Public liability
- Health.

Georgia also has extensive experience in professional indemnity and contractual claims including claims against engineers, architects, project managers, real estate agents and surveyors.

"I work with insurer clients and insureds from all different backgrounds. It's great to learn more about the different professions of our insureds. I enjoy not only helping clients resolve disputes, but identifying risk areas. I help clients (insureds) mitigate and control those risks to minimise potential future claims and complaints. Reaching the best result for the client and insured in the circumstances of each claim is always satisfying."

Prior to joining B.N. in 2018, Georgia worked in the UK for a global law firm, and in Canada for a Canadian national firm in risk and insurance.

Georgia has a Bachelor of Laws. She is currently undertaking a Graduate Diploma of Applied Risk Management and Corporate Governance through the Governance Institute of Australia. In 2016, Georgia was named National Dux for Applied Risk Management through the Governance Institute. Georgia is member of the Law Society of WA.
